## Development Experience —

C

Flutter

Javascript

Java

Python

R

Bash

HTML

Docker

Kubernetes

Android

Arduino

Raspberry Pi

## Work History

Present	Graduate Teacher's Assistant	Montana State University
24 Aug 2022		
29 Jul 2022	Post-Bachelor's Researcher	Institute of Complex Additive Systems Analysis
22 May 2022	Research Intern	
05 Sep 2017	During my time in this position, my contributions to projects I have worked on include: <ul style="list-style-type: none"><li>Data preprocessing for language detection models</li><li>Developing analytical methods for RF and Bluetooth models</li><li>Internet-Of-things research and metadata configuration</li><li>Writing Helm Charts for several Kubernetes applications</li></ul> The last project I worked on applied acoustic analysis as a method to detect aircraft.	
16 Aug 2017	High School Work Study	National Security Agency
06 Sep 2016	As a requirement of this position, I had to pass a background check and a federal investigation to obtain a Top Secret security clearance. The tasks I was assigned involved clerical work relating to inventory, data transfer requests, and documentation management. In addition, I was a part of the effort to prepare for the Inspector General's inspection.	

## Education

Present	Ph.D. Physics	Montana State University
Aug 2022	Dissertation in TBA	GPA: TBA
May 2022	B.Sc. Physics	New Mexico Institute of Mining and Technology
Aug 2017	Astrophysics and Atmospheric Physics Option	GPA: 3.28
	Minor in Mathematics	

## Publications

18 Mar 2022	Atmospheric precipitable water vapor and its correlation with clear-sky infrared temperature observations	
	Vicki Kelsey, Spencer Riley, Kenneth Minschwaner	
	Atmospheric Measurement Techniques	
	10.5194/amt-15-1563-2022	

## Presentations

---

Apr 2022  
Lubbock, TX

**The Precipitable-Water Model Analysis Tool: An open-source suite for estimating precipitable water with low-cost instrumentation.**  
*Spencer Riley, Vicki Kelsey*  
National Weather Service, 5<sup>th</sup> Texas Weather Conference

Apr 2022

*Vicki Kelsey, Spencer Riley*  
National Weather Service, 5<sup>th</sup> Texas Weather Conference

Jan 2020  
Boston, MA

**Atmospheric Precipitable Water and its Correlation with Clear Sky Infrared Temperature Readings**  
*Vicki Kelsey, Spencer Riley*  
American Meteorological Society Annual Meeting 100

Nov 2019  
Providence, RI

**Atmospheric Precipitable Water and its Correlation with Clear Sky Infrared Temperature Readings: Data Analysis**  
*Spencer Riley, Vicki Kelsey*  
Physics Congress 2019

## Research Projects

---

Present

Jan 2019

### The Precipitable Water Project

The purpose of the research is to develop a method to estimate the amount of precipitable water from the effective temperature using low-cost instrumentation. As a part of the data collection process, we collected daily ground and sky temperatures to be analyzed by our preprocessing and analysis software suite.

**Collaborators:** *Vicki Kelsey, Dr. Kenneth Minschwaner*

**Documentation Page:** `pmat.app`

## Development Projects

---

Maintained  
v2.0

### Precipitable-Water Model Analysis Tool

An open source software suite for the analysis of precipitable water.  
**Documentation Page:** `docs.pmat.app`

Not  
Maintained  
v1.0.2

### pacviz

A R package comprised of informal, radial data visualizations for regression and comparative analysis.

**Documentation Page:** `pacviz.sriley.dev`
