Work History

| | | |
|-------------|--|---|
| Present | Graduate Teacher's Assistant | Montana State University |
| 24 Aug 2022 | | |
| 29 Jul 2022 | Post-Bachelor's Researcher | Institute of Complex Additive Systems Analysis |
| 22 May 2022 | Research Intern | |
| 05 Sep 2017 | During my time in this position, my contributions to projects I have worked on include: <ul style="list-style-type: none">• Data preprocessing for language detection models• Developing analytical methods for RF and Bluetooth models• Internet-Of-things research and metadata configuration• Writing Helm Charts for several Kubernetes applications The last project I worked on applied acoustic analysis as a method to detect aircraft. | |
| 16 Aug 2017 | High School Work Study | National Security Agency |
| 06 Sep 2016 | As a requirement of this position, I had to pass a background check and a federal investigation to obtain a Top Secret security clearance. The tasks I was assigned involved clerical work relating to inventory, data transfer requests, and documentation management. In addition, I was a part of the effort to prepare for the Inspector General's inspection. | |

Education

| | | |
|----------|----------------------|--------------------------|
| Present | Ph.D. Physics | Montana State University |
| Aug 2022 | Dissertation in TBA | GPA: TBA |

| | | |
|----------|---|---|
| May 2022 | B.Sc. Physics | New Mexico Institute of Mining and Technology |
| Aug 2017 | Astrophysics and Atmospheric Physics Option Minor in Mathematics | GPA: 3.28 |

Publications

| | |
|-------------|---|

Research Projects

Present

Jan 2019

The Precipitable Water Project

The purpose of the research is to develop a method to estimate the amount of precipitable water from the effective temperature using low-cost instrumentation. As a part of the data collection process, we collected daily ground and sky temperatures to be analyzed by our preprocessing and analysis software suite.

Collaborators: *Vicki Kelsey, Dr. Kenneth Minschwaner*

Development Projects

Maintained

v2.0

Precipitable-Water Model Analysis Tool

An open source software suite for the analysis of precipitable water.

Documentation Page: `docs.pmat.app`

Not Maintained

v1.0.2

pacviz

A R package comprised of informal, radial data visualizations for regression and comparative analysis.
