Work History

Present	Graduate Teacher's Assistant	Montana State University
24 Aug 2022		
29 Jul 2022	Post-Bachelor's Researcher	Institute of Complex Additive Systems Analysis
22 May 2022	Research Intern	
05 Sep 2017	During my time in this position, my contributions to projects I have worked on include: <ul style="list-style-type: none">Data preprocessing for language detection modelsDeveloping analytical methods for RF and Bluetooth modelsInternet-Of-things research and metadata configurationWriting Helm Charts for several Kubernetes applications The last project I worked on applied acoustic analysis as a method to detect aircraft.	
16 Aug 2017	High School Work Study	National Security Agency
06 Sep 2016	As a requirement of this position, I had to pass a background check and a federal investigation to obtain a Top Secret security clearance. The tasks I was assigned involved clerical work relating to inventory, data transfer requests, and documentation management. In addition, I was a part of the effort to prepare for the Inspector General's inspection.	

Education

Present	Ph.D. Physics	Montana State University
Aug 2022	Dissertation in TBA	GPA: TBA
May 2022	B.Sc. Physics	New Mexico Institute of Mining and Technology
Aug 2017	Astrophysics and Atmospheric Physics Option	GPA: 3.28
	Minor in Mathematics

Research Projects

Present

Jan 2019

The Precipitable Water Project

The purpose of the research is to develop a method to estimate the amount of precipitable water from the effective temperature using low-cost instrumentation. As a part of the data collection process, we collected daily ground and sky temperatures to be analyzed by our preprocessing and analysis software suite.

Collaborators: *Vicki Kelsey, Dr. Kenneth Minschwaner*

Development Projects

Maintained
v2.0

Precipitable-Water Model Analysis Tool

An open source software suite for the analysis of precipitable water.
Documentation Page: `docs.pmat.app`

Not
Maintained
v1.0.2

pacviz

A R package comprised of informal, radial data visualizations for regression and comparative analysis.
